

At S&W Precision Machining, we take pride in being ITAR (International Traffic in Arms Regulations) certified, a testament to our commitment to excellence and precision in the aerospace industry. As a leading machine shop based in Commerce City, Colorado, we have consistently delivered high-quality products and services since our establishment in 2019.

What is ITAR Certification?

ITAR Certification is a crucial designation for companies operating in the aerospace and defense sectors. It signifies compliance with the stringent regulations set forth by the U.S. Department of State, specifically governing the export and import of defense-related articles and services. This certification is not only a legal requirement but also a mark of trust and reliability in the aerospace industry.

Our Commitment to Excellence

As a machine shop with ITAR Certification, we adhere to the highest standards of security and confidentiality. This certification ensures that sensitive information and technologies related to defense and aerospace are handled with the utmost care and protection. Our processes are designed to safeguard your projects, guaranteeing the security and integrity of your intellectual property.

ISO9001 and AS9100 Certifications

In addition to our ITAR Certification, we recently achieved ISO9001 and AS9100 Certifications, further enhancing our standing in the aerospace industry. These certifications reflect our dedication to quality management systems, ensuring that our customers receive products and services that meet the highest industry standards.

Why Choose an ITAR Certified Machine Shop?

- **Security and Compliance:** ITAR Certification ensures that we strictly adhere to the regulations governing the aerospace and defense sectors, providing you with peace of mind regarding the security of your projects.
- **Access to Defense Contracts:** Being ITAR certified opens doors to defense contracts and partnerships, expanding our capabilities and allowing us to contribute to critical projects within the aerospace industry.
- **Trusted by Industry Leaders:** Our commitment to excellence and certification credentials have earned us the trust of industry leaders like Lockheed Martin.

Choose S&W Precision Machining for your aerospace machining needs, and experience the unmatched quality and reliability that ITAR Certification brings to the table. We are poised to elevate your projects to new heights.
