

Welcome to S&W Precision Machining, your trusted partner in precision machining based in Commerce City, Colorado. With a successful journey in business since 2019, and as part of our commitment to excellence, we are excited to share our recent certifications in ISO 9001 and AS9100, further elevating our capabilities in serving the aerospace industry.

## **What are ISO 9001 and AS9100 Certifications?**

ISO 9001 and AS9100 are internationally recognized quality management standards that set the benchmark for excellence in manufacturing and aerospace industries, respectively.

- **ISO 9001 Certification:** This standard focuses on general quality management principles, ensuring that organizations meet the needs of their customers and stakeholders. It emphasizes a systematic approach to continuous improvement and customer satisfaction.
- **AS9100 Certification:** Tailored specifically for the aerospace industry, AS9100 builds upon ISO 9001 principles with additional requirements that address the unique challenges and complexities of aerospace manufacturing. Compliance with AS9100 signifies a commitment to the highest standards in aerospace quality management.

## **Our Commitment to Excellence**

At S&W Precision Machining, we take great pride in achieving both ISO 9001 and AS9100 Certifications. These certifications reflect our dedication to delivering products and services that meet or exceed industry standards. Our commitment to quality management ensures that every project is executed with precision, reliability, and the utmost attention to detail.

## **Why Choose an ISO9001 and AS9100 Certified Machine Shop**

- **Quality Assurance:** ISO9001 and AS9100 certifications demonstrate our commitment to maintaining rigorous quality management systems, resulting in products that consistently meet or surpass customer expectations.
- **Aerospace Expertise:** AS9100 certification specifically attests to our ability to meet the demanding requirements of the aerospace industry. This includes compliance with industry-specific regulations and a focus on safety and reliability.

- Customer Satisfaction: Our adherence to ISO9001 principles means that customer satisfaction is at the core of our business. We are dedicated to understanding and fulfilling your unique requirements.
- Industry Recognition: ISO9001 and AS9100 certifications are globally recognized and respected. Choosing a certified machine shop like ours assures you of working with a partner who meets the highest international standards.

## **Join Our Growing List of Satisfied Customers**

Lockheed Martin is already among our esteemed clients, and we aspire to expand our footprint by serving other industry leaders in not only aerospace, but any industry looking for quality parts at a competitive price. Choose S&W Precision Machining for your machining needs, and experience the excellence that ISO9001 and AS9100 certifications bring to the forefront.
